(DESCRIPTION)

[00:00:00.00] Text, Bissell Power Force Helix Vacuum Assembly. 1701 Model.

(SPEECH)

[00:00:06.62] Assembling your unit is quick and easy. First place the upper handle on to the base and push it down. Attach the handle with the two screws that are taped to the handle in a plastic bag.

(DESCRIPTION)

[00:00:17.98] She screws in one screw on each side of the handle.

(SPEECH)

[00:00:26.57] Next, insert the lower cord wrap and turn it to the left to lock into place. Then wrap the power cord around the cord release clips, and clip the end of the plug to the power cord.

(DESCRIPTION)

[00:00:37.84] She wraps the cord.

(SPEECH)

[00:00:39.29] Next, insert the end of the hose into the back of the vacuum and twist to lock into place.

[00:00:44.91] Now wrap the hose through the hose clip and connect the hose wand to the bottom of the vacuum.

(DESCRIPTION)

[00:00:49.43] She snaps the hose in place.

(SPEECH)

[00:00:50.97] The accessory store onboard the unit.

(DESCRIPTION)

[00:00:53.51] She clips them on holders. Turbo Brush on 1701 model only.

(SPEECH)

[00:00:57.90] The crevice tool can be found inside the extension one.

[00:01:00.56] [MUSIC PLAYING]

(DESCRIPTION)

[00:01:01.25] She removes the grey crevice tool from the black extension wand, turns it around, and attaches it to the end, then undoes this and stores it. Text, Bissell. Home to a deeper clean.
