[00:00:01.68] When we adopted Roxy from the shelter, we adopted lots of messes too. And since Bissell is our family's business, carpet stains don't go over so well in my house. That's why we designed something to take care of spills and stains. It's our Bissell's SpotBot pet. You just turn it on and walk away. And the automatic spot cleaner removes deep down stains in just minutes. I love a clean carpet almost as much as I love Roxy. The SpotBot pet from Bissell, home to a deeper clean.
