[00:00:00.00] Text, Bissell, PowerLifter Ion Pet, How to Assemble, Charge and Use

(SPEECH)

[00:00:05.45] Putting together and using your PowerLifter Ion Pet 2-in-1 cordless vacuum is easy. We'll show you all the steps in this quick video. Start by inserting the foot into the body of the vacuum.

(DESCRIPTION)

[00:00:17.38] A woman stands after she inserts the vacuum foot

(SPEECH)

[00:00:21.58] Plug the charging into the port on the back of the vacuum. Plug the other end of the charger into an outlet. While it's charging, your vacuum will display a blinking red light.

[00:00:36.24] When it's fully charged, it will illuminate solid green for 10 minutes. After that, it will blink. Your vacuum needs to charge for eight hours before it's ready for use. To start cleaning, switch the power button to on.

[00:00:50.95] The button directly underneath lets you turn the motorized brush roll on and off. The PowerLifter Ion pet vacuum has a two-way folding handle that adapts to your cleaning needs and makes storing easy. The trigger to fold your vacuum is under the handle.
